

TECHNICAL SPECIFICATION

Copper cable wire fork terminal connector

Functions:

- Connecting of multicore conductors without welding
- Mounting of multicore conductors in terminals and of switches, thermo regulators, circuit breakers and other electrical devices

Technical data:

- Material: brass alloy with galvanic tin coating and insulated with polyvinylchloride
- Colours: offered in three main colours: red, blue and yellow, as each colour corresponds to different section of multicore conductor

Mounting:

- by mechanical pressing using crimping pliers via mechanical pressing of the terminal and the cable.

Areas of application:

- Automotive industry
- Mechanical engineering
- Electricity distribution networks

Product benefits:

- The insulation of the terminals protects from direct contact with conductive parts and adjoining connections
- Easy and quick mounting
- High quality and reliability

Variants:

Type	Length	Colour	Conductor (mm ²)	Packing (pcs)	Packing / Box (pcs)	Catalogue number
SVS 1.25-4	21.2	Red	0.5 - 1.5	100	10 / 240	59080
SVS 1.25-5	21.2	Red	0.5 - 1.5	100	15 / 180	59081
SVS 1.25-6	21.2	Red	0.5 - 1.5	100	15 / 180	59082
SVS 2-4	21.0	Blue	1.5 - 2.5	100	15 / 180	59083
SVS 2-5	22.5	Blue	1.5 - 2.5	100	15 / 180	59084
SVS 2-6	27.6	Blue	1.5 - 2.5	100	10 / 120	59085
SVS 5.5-4	24.5	Yellow	4 – 6	100	5 / 60	59086
SVS 5.5-5	27.9	Yellow	4 – 6	100	5 / 60	59087
SVS 5.5-6	27.9	Yellow	4 – 6	100	5 / 60	59088

Standard:

EN 61 238-1
